

## Best Promotions Product Safety Statement

California Proposition 65 (Prop 65) is the Safe Drinking Water and Toxic Enforcement Act of 1986 published as Section 25249.7 of California's Health and Safety Code. Proposition 65 is intended to warn consumers of potential exposures to chemicals that are recognized by the State of California as carcinogens and reproductive toxins. Prop 65 applies to all consumer goods sold within the state and impacts all importers, domestic manufacturers, and retailers of these items

Best Promotions maintains its own Safety Protocol™ program to inspect and thoroughly test all products to make sure they comply with California's Proposition 65 and all other national safety standards. To ensure compliance with the Safety Protocol, Best Promotions requires that its products demonstrate - via testing by an independent accredited analytical laboratory - that they comply with both the California Proposition 65 exposure standard as well as the Federal Consumer Product Safety Commission's toughest requirements. Through our vigorous enforcement of the Safety Protocol™, Best Promotions pledges to ensure compliance with California's Proposition 65 as well as all relevant national safety standards to protect our customers.

Safety sheets and supporting documentations are readily available for all products upon request. As part of our rigorous quality program, we keep and maintain detailed quality records throughout our entire supply chain. This starts with inspections at our oversea factory by qualified audit team in China. We also set up third-party factory audits for both social and quality compliance on a regular basis. At least on a bi-annual basis, Best Promotions team from the United States conduct on site audit of our supplier factory to ensure and maintain the highest level of quality and safety for our product.

Thank you

Michael Hicks

President

## Testing Methodology

Based on risk assessment of our product and market, an independent accredited analytical laboratory will perform compliance testing on Lead and Phthalates on all active products. Additional chemical such as Cadmium, BPA and other chemicals will be tested as needed.

## Testing Frequency

- All New Products must pass testing by an independent accredited analytical laboratory prior to being released for mass production and sale.
- When an existing product is moved to a new manufacturer, the product will be tested by an independent accredited analytical laboratory before released for mass production and sale.
- All imprint inks and other decorating materials are tested each year.
- Re-Testing Frequency. The frequency of retesting is established based upon the potential risks associated with the product and the sales volume of the product.

We test all colors of all components of all products to all standards that apply. Formal Test Reports can be requested thru your sales rep.

## BEST Approved Accredited Laboratories

- **Bureau Veritas**  
<http://www.bureauveritas.com>

**CPSC Lab ID:** 1018  
**Certificate Number:** L1307

- **TTL Laboratories**  
<http://TTL-labs.com>

**CPSC Lab ID:** 1097  
**Certificate Number:** 2815.01 & 2815.02

- **Consumer Testing Laboratories, Inc**  
<https://www.consumertesting.com/>

**CPSC Lab ID:** 1072  
**Certificate Number:** 2731.01

## Best Prop 65 Label

To comply with the new Prop 65 warning regulation effective August 30, 2018. All products manufactured after Aug 15, 2018 that has a Prop 65 listed chemical above exposure limits, will be shipped with the new warning label regardless of its ship to destination.

- Product Label Warning (*Font size 6 or above*)

- Catalog/Website Warnings

Catalog will update with applicable warning for non-compliant products.

Work Order #: 1806-13468

Project Name: RED & WHITE COOLIE

Sample Number: 002  
Sample Description: BLACK FOAM FROM RED & WHITE COOLIE

PARAMETER	SAMPLE RESULTS	DET. LIMIT	UNITS	METHOD	DATE ANALYZED	ANALYST
TOTAL METALS ANALYSIS						
Lead	<20	20	ppm	ICP	7/6/2018	AGJ
PHTHALATE ANALYSIS						
Bis(2-ethylhexyl)phthalate (DEHP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Di-n-butyl phthalate (DBP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Butylbenzyl phthalate (BBP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Diisononyl phthalate (DINP)	<0.03	0.03	%	GC/MS	7/2/2018	JEB
Diisodecyl phthalate (DIDP)	<0.03	0.03	%	GC/MS	7/2/2018	JEB
Dipentyl phthalate (DPENP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Di-n-hexyl phthalate (DnHP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Dicyclohexyl phthalate (DCHP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB
Diisobutyl phthalate (DIBP)	<0.01	0.01	%	GC/MS	7/2/2018	JEB

Note 1: Based on the California Proposition 65 settlement limits of 100 ppm for lead in plasticized components of consumer products, this sample would be in compliance with the total lead content requirements of the regulation.

Note 2: This sample is considered exempt from the warning requirements of California Proposition 65 for the phthalate compounds DEHP, DBP, BBP, DINP, DIDP and DnHP, as the concentrations detected are less than 0.1%.

The < sign denotes not detected.
