

The LIGHT of the Party.

Our unique, customizable Logo Plate—a clear, central lid insert—allows the light from our patented 100% waterproof rechargeable Night Sight™ LED Liner to shine through and illuminate your company's logo.

Designed to outperform the competition all day and all night so your company will be proud to put your logo on them. Comes with four reusable LiT ice legs standard. Drop them into the corners of your cooler and drop the core temperature of your cooler down in a matter of minutes.
